

Christopher W. Dunn

Chris Dunn is a licensed Missouri attorney, geospatial business owner, expert witness, and geohistorical researcher. Through GeoVelo, LLC geospatial forensic investigations are conducted, demonstrative exhibits are produced, and geospatial services are provided. This work involves investigating, mapping, and modeling incidents, accidents, and crimes. Which requires applying well-established geospatial techniques to the facts of the case using Geographic Information Systems (GIS), 3-D modeling software, and field confirmation procedures. Cases often require integrating the geospatial work product of other independent expert witnesses into a set of unified demonstrative exhibits.

EDUCATION

Juris Doctor, University of Missouri, School of Law, Columbia, Missouri. (May 2014)

Master of Arts, Geography, Kansas State University, Manhattan, Kansas. (December 1994)

Bachelor of Science, Geography, Kansas State University, Manhattan, Kansas. (May 1993)

TESTIMONY IN AN EXPERT'S CAPACITY (Only Cases which went to trial)

Johnny L King v. Missouri Department of Transportation, 17AU-CC00056 (2017) Prepared demonstrative exhibits used in arbitration on behalf of the defendant. This was a civil wrongful death action. I created a digital 3-dimensional accident scene model and produced multiple maps, graphical exhibits, and testified to their applicability and accuracy.

State v. Andria Elizabeth Heese, 19BA-CR05786-01 (2019) Prepared demonstrative exhibits used on behalf of the defendant. This case began as a felony criminal action. I created a digital 3-dimensional accident scene model and several graphical exhibits.

Raymond Bacon v. Glenn C Head, 16CO-CC00014 (2019) Prepared demonstrative exhibits used in court and testified before the Sixteenth Judicial Circuit of Missouri, Cooper County Missouri, on behalf of the plaintiffs. This was a civil wrongful death and trespassing action. I created a digital 3-dimensional crime scene model and produced multiple map and graphical exhibits using the state's evidence and testified as to their accuracy and applicability.

Anthony Williams #517097 v. Jeff Norman, 13AC-CC00376 (2014) Prepared demonstrative exhibits used in court and testified before the Nineteenth Judicial Circuit of Missouri, Cole County Missouri, on behalf of the appellant. This was a habeas corpus, actual innocence appeal. I created a digital 3-dimensional crime scene model and produced multiple exhibits using the state's evidence and testified as to the model's applicability.

Board of Leavenworth County Comm'rs v. Whitson, 281 Kan. 678, 132 P.3d 920, 132 P.2d 920 (2006) Testified before the First Circuit Court of Kansas, Leavenworth County, Kansas on behalf of the plaintiffs. Testimony related to the land use regulation scheme in effect at the time of an alleged violation.

DEMONSTRATIVE EXHIBITS

Working through GeoVelo, LLC I have prepared demonstrative geospatial exhibits which have been used in legal negotiations, investigations, property negotiations, administrative procedures, planning & zoning hearings, city council meetings, civil litigation, continuing legal education (CLE) course presentations, criminal litigation, and state court appellate work. Not all of my cases go to court. I estimate of the number of cases I have worked to produce exhibits exceeds 130.

EMPLOYMENT

- Business Owner & Attorney**, GeoVelo, LLC, Columbia, Missouri, (2012 to Present). GeoVelo uses geographic information systems (GIS) to provide geospatial products to our clients, conduct geospatial forensic investigations, and produce demonstrative exhibits. This work involves investigating and modeling incidents, accidents, and crimes. Often to prove or disprove a legal element in the case at hand an attorney must establish an incident's location in both time and Euclidean space. This requires the application of well-established geospatial techniques to the facts of the case using Geographic Information Systems (GIS), 3-D modeling software, and field confirmation procedures. GeoVelo often combines the geospatial work of other independent experts, like surveyors, hydrologists, and photogrameters, into a set of unified demonstrative exhibits. *See* GeoVelo.com
- GIS Manager**, Community Asset Builders, Jefferson City, Missouri (11-2014 to 08-2016). CAB uses geographic information systems (GIS) to provide geospatial business intelligence and market analysis products to health care market participants. Managed all aspects of GIS business intelligence services for clients. Coached CAB team members on use of geospatial data to improve health care access planning. Developed a GIS for Missouri's Federally Qualified Health Centers to visually depict patient growth/decline, market penetration and new development opportunities.
- Director**, Planning, Zoning and Community Development Department, City of Leavenworth, Kansas. (11-2008 to 05-2011). Reported to the City Manager. Chair of the city's Development

Christopher W. Dunn
